Chennai - 5

Sir,

Sub: Sending proposal for financial assistance for a state level workshop on
"E-CONTENT PREPARATION FOR PROSPECTIVE TEACHERS".

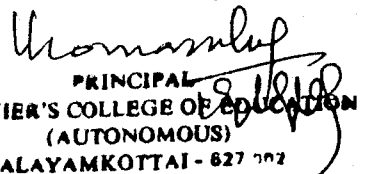

- Ref: 1. TANSCH office Letter No. Rc.No.211/B/2019 dated 30-8-2019.
2. The Regional Joint Director of Collegiate Education, Tirunelveli
நக.எண்10645/அ3/2019, தேதி:10/09/19.

Our college of Education has been in existence for 69 years, in serving the society through teacher education. The College offers B.Ed., M.Ed., M.Phil. (Education) and Ph.D. (Education) Programmes. The college underwent NAAC assessment and it was re-accredited with A* Status in April 2007 and again re-accredited (3rd Cycle) at 'A' Grade with CGPA: 3.67 in February 2013 and the reaccreditation was extended from 2018 to 2020.

The College has the credit of organizing five UGC Sponsored Refresher Courses for the college teachers and a number of state and national level seminars/Workshops for the professional enrichment of teachers and teacher educators. In Continuation of organization of service, we would like to organise a three day workshop for prospective teachers. We have prepared a proposal for financial assistance to conduct the workshop on "E-CONTENT PREPARATION FOR PROSPECTIVE TEACHERS" from 06th to 08th February 2020. We request you to consider the worth of our proposal and offer financial assistance to the same. Kindly do the needful.

Thanking You

Yours Sincerely

PROPOSAL ABSTRACT

E-CONTENT PREPARATION FOR PROSPECTIVE TEACHERS

Education is to enrich the qualities of head, hand and heart. Education is one of the basic needs of men and women. The aim of the education is the attainment of human excellence and perfection not just in the field of knowledge or activity but life in totality. Teaching plays a vital role in formal education system. In spite of established sound theories of teaching, it still continues to be a challenging task. Teaching-centre and group oriented methods of instruction hardly provide for individual differences of the learners. E-learning is the new trend of education. The term covers a wide set of applications and processes, such as web-based learning, computer-based learning, virtual classrooms, and digital collaboration. E-learning is a process and E-content is a product. E-content is termed as Electronic content that include text, image, graphics, animation, audio and video, sometimes e-content will be single element carrying anyone of the above element or all of the above together to display offline or online web-pages and also to be transferable to computer to another computer and internet. Electronic content (e-Content) or digital content is defined by those involved in creating, providing and distributing information as the digitized content, which is viewed on screen and not on paper. Contents that are produced and stored electronically rather than in print are the result of electronic publishing (e-publishing). This approach of teaching has become an answer to the complicated modern, social, economic condition and an exploding population. E-content lesson is generally designed to guide students through information or to help them perform specific tasks. An E-content package can be used as teacher in the virtual classroom situation. Using E-content, the time and finance involved in the teaching process can be minimized. E-content is facilitating individualized instruction.

In this knowledge explosion society to bring effectiveness in dissemination of information, development of creative contents and incorporation of innovative information and communication, technologies plays a vital role at all level of education system. For the upcoming digital generation to create a digital teaching- learning environment, mastering ICT skills and utilizing ICT is of utmost importance in every educator's profession. E-content has become a very valuable and powerful tool of education in this contemporary education system; It is the newest method of instruction that can be used to create an information rich

society where everyone, irrespective of caste, religion, race, region, gender etc., are empowered to create, receive, share and utilize information for their economic, social, cultural and political upliftment and development. The use of e-content has transformed teaching in several ways. In the process of e-learning, structured and validated e-content serves as an effective virtual teacher. Today, the educators are able to generate their own resources and consequently have more control over the classroom than they have had in the past. Hence the workshop on e-content preparation for prospective teachers would be relevant at present as it helps them to become an efficient teacher for digital native learners and could cover the students all over the world; develop online courses in the future and become most worthy teacher in the digital world.
