

ST. XAVIER'S COLLEGE OF EDUCATION (AUTONOMOUS)

[Re-accredited (3rd cycle) by NAAC at 'A' Grade with CGPA: 3.67]

PALAYAMKOTTAI – 627 002
Tirunelveli, Tamilnadu

INSTITUTION'S ENERGY POLICY DOCUMENT

In the context of utilization of energy resource like electricity, the management consulted the faculty, non-teaching staff and student-teachers and created an awareness about the necessity of saving the electricity and use the non-conventional energy as well as natural resources like sunlight and air.

- To utilize the natural resources of light namely sunlight and air, the entire college community is trained to keep windows and doors open on either side of the classrooms, halls and laboratories.
- To use a minimum level of air-conditioners in the computer lab, conference hall and Mother Teresa hall. In the event of electricity failure we use generators and solar energy.
- To pay attention the switching off the lights, fans and air-conditioners when the classes or educational programmes are not held.
- To remind at periodical intervals the usage of non-conventional energy and its impact on general health, eyes and bodily temperature.
- To educate the members of this academic institution to practice consciously the planting of trees in their homes, use of plants that promote oxygen and maintaining them regularly.
- To encourage the stakeholders of this academic institution to spread the importance and usage of non-conventional energy and avoid the usage of conventional energy. Thus the investment on conventional energy is reduced and non-conventional energy is promoted.
